SOUTHWEST OFFICE SOLUTIONS | CFO BRIEFING

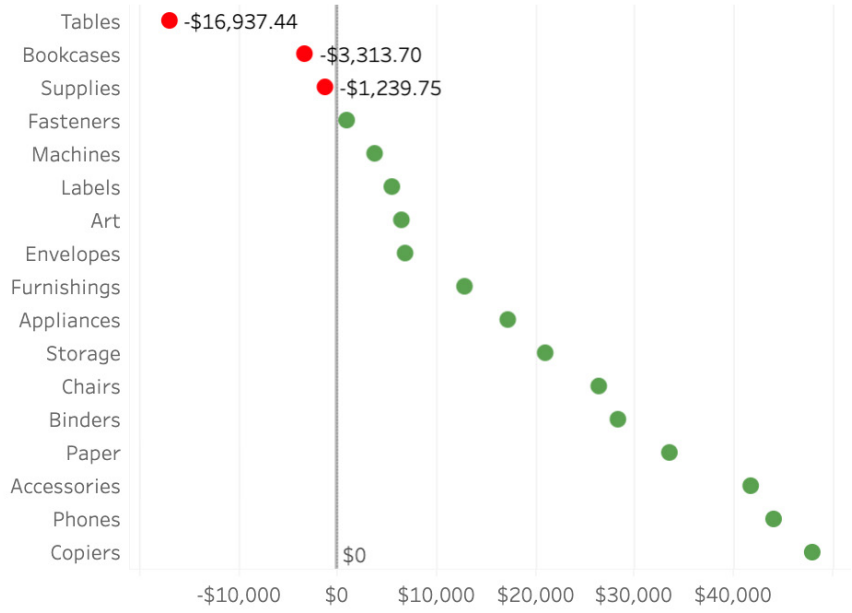

Prioritize Table Pricing to Recover Profitability

Tables generated **$16,937.44 in net losses**, making them the largest loss producing product subcategory. Reviewing pricing and discount policies for Tables should be the CFO's first priority.

WHAT THE DATA SHOWS

Tables Lost $16,937, Making It the Top Priority for Margin Recovery

Net profit by product subcategory, January 2022 to December 2025

WHY IT MATTERS

TABLES NET LOSS

–$16,937.44

Largest net loss among product subcategories.

COMBINED NET LOSSES

–$21,490.89

Combined net losses from Tables, Bookcases, and Supplies.

TABLES SHARE

78.8%

Tables account for 78.8% of the combined losses of the three unprofitable subcategories.

RECOMMENDED ACTION

Review pricing and discount approvals for Tables first because they represent the largest net loss among product subcategories. Evaluate whether adjusting prices or reducing excessive discounts can improve margins. Review Bookcases and Supplies next.
